PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Art Unit: 1791

Continuation of 3. NOTE:

Claim 1 as amended would require “wherein the thermal expansion coefficient of the pair of lamination plates is different from a thermal expansion coefficient of the metal foil”. Claims 15 and 16 are new. The new limitations and claims were not previously considered such that the amendment after final is not entered as doing so would raise new issues requiring further search and/or consideration.
